

BULLETIN ON CORONAVIRUS TESTING - UPDATE

Friday, June 12, 2020

As per Tersano Bulletin 04/20 and due to the following circumstances, Tersano testing against COVID that was scheduled for June has been delayed until early August.

- Testing on the SARS-CoV-2 virus (the coronavirus) requires an approved biohazard level 3 test laboratory;
- Such authorized third party labs are not available in Canada;
- Tersano must perform testing in the United States;
- Tersano is a Canadian company and unfortunately the Canadian/US border is currently closed through end of July;
- Experienced Tersano staff **are required onsite** for lab set up and dispensing of the SAO solution.

We will communicate updates on this and more as developments occur.

A handwritten signature in blue ink, appearing to read "Steve Hengsperger", is positioned above the printed name and title.
